PROFILE

I'm an Interaction Design student interested in UX, creative technology, storytelling, and emerging media. Through design and experimentation, I create experiences that make complex ideas accessible, engaging, and human.

EDUCATION

July 2023- Expected July 2027

Anant National University

B.Des (Interaction Design)

GPA: 3.4 (as of July 2026)

PROJECTS

- **AlignR** – Built a wearable posture-correction device that detects slouching and provides real-time feedback to improve posture.
- **Kakori Kand** – Developed immersive virtual environments in Blender, integrating spatial design with interactive experiences.

SKILLS

- UX Research
- UI Design
- Wireframing & Prototyping
- Information Architecture
- Design Systems
- Creative Technology
- 3D World Building
- Graphic Design

WORK EXPERIENCE

• Kanoria Centre for Arts – Ceramics Festival

Assisted in organizing and coordinating festival activities, supporting artists and ensuring smooth visitor engagement.

• Design Workshop with Gaurav Juyal

Volunteered in planning and facilitating a creative workshop, managing logistics and participant coordination.

• Serendipity Arts Festival – Volunteer

Managed lighting and sound for What Does Loss Taste Like?, coordinated show timings, and ensured smooth technical execution of the immersive installation.

TOOL KIT

- Figma
- Adobe Suite
- p5js
- Unity
- Framer
- Blender
- Claude
- AntiGravity
- Touch Designer
